Santa Monica Mountains Conservancy,

Proposition 1 Urban Creek Funds addresses the mandate the Conservancy embraces to protect and enhance urban creeks, a great many of which have suffered critically due to drought and neglect.

These creeks are a most essential asset to the preservation of our southland mountains and the riparian habitat these waters nurture, the wildlife they sustain, and are a sterling feature to all those who fully enjoy visitation to the legendary preservation of these lands by the Santa Monica Mountains Conservancy.

The constituencies of both my organizations vigorously support the release of the needed funding that Proposition 1 has authorized to enable the Conservancy to continue its mission for the preservation of these resources admired worldwide.

I am, as ever yours,

Arnold Newman, Ph.D.

Executive Director, ISPTR

President, Oak Forest Canyon Homeowners Association
Sherman Oaks, California
